

a. Teacher Side User:

This is the home page after user login.

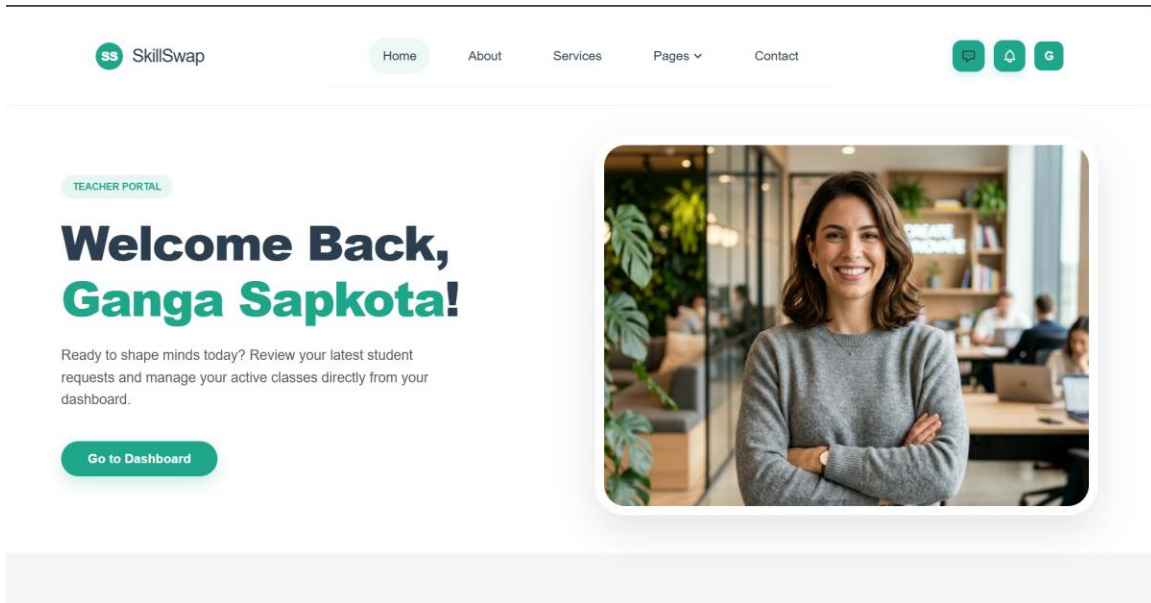

Figure 1: User home page

When a user logs in as a teacher, they need admin approval to access the dashboard.

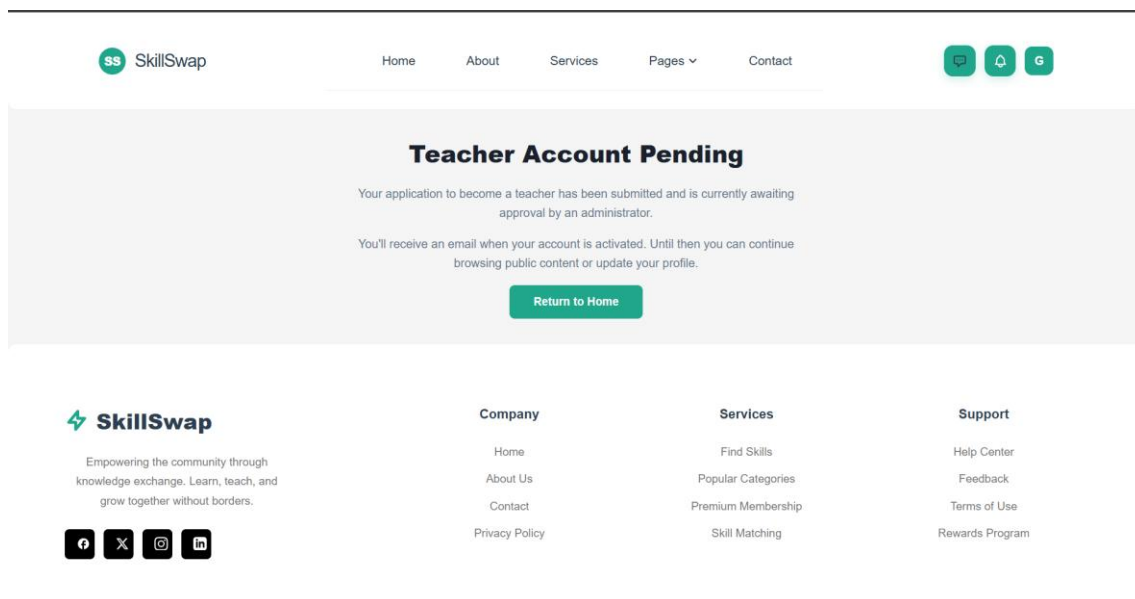

Figure 2: Teacher dashboard before admin approval

The teacher's dashboard after the admin approves access and before adding any skill or session.

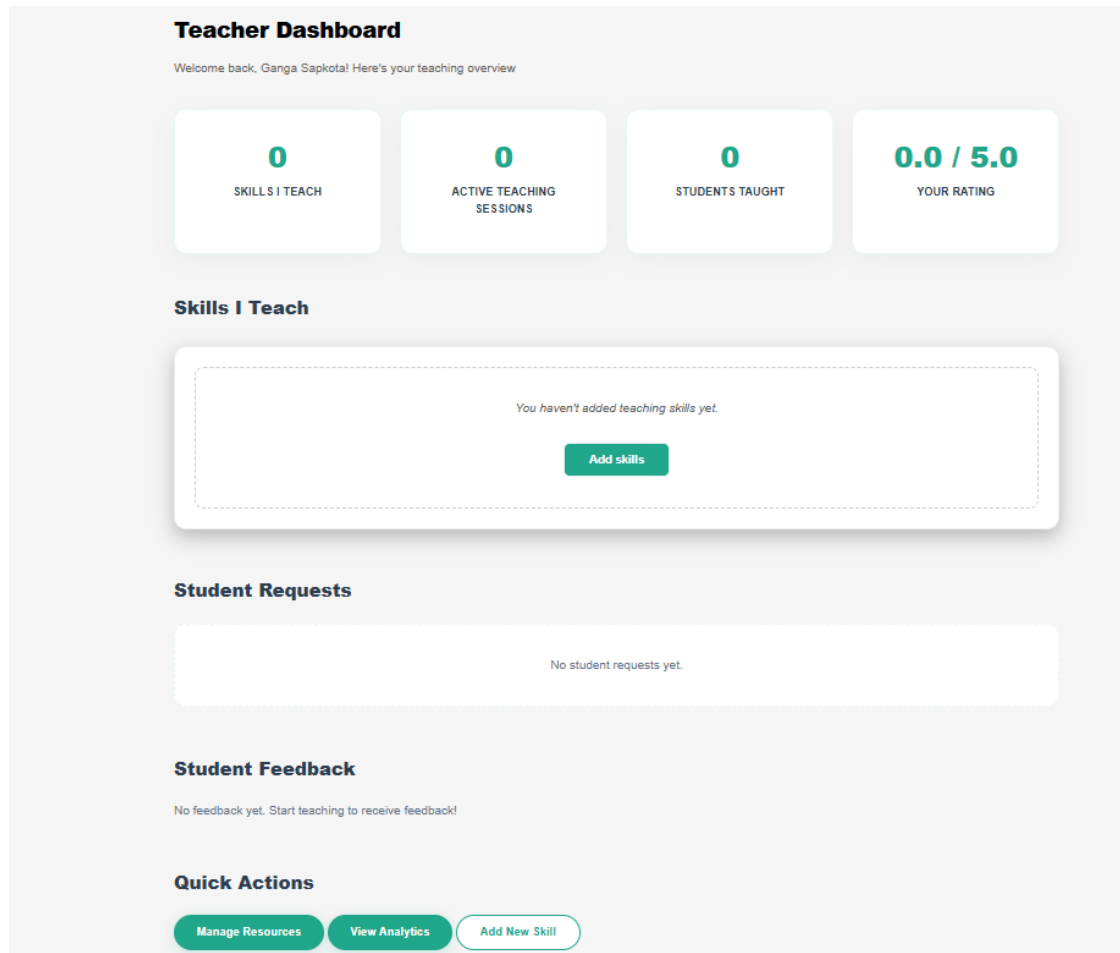

Figure 3: Teacher dashboard before adding skill and session

After adding skills and sessions, this is how the teacher's dashboard looks.

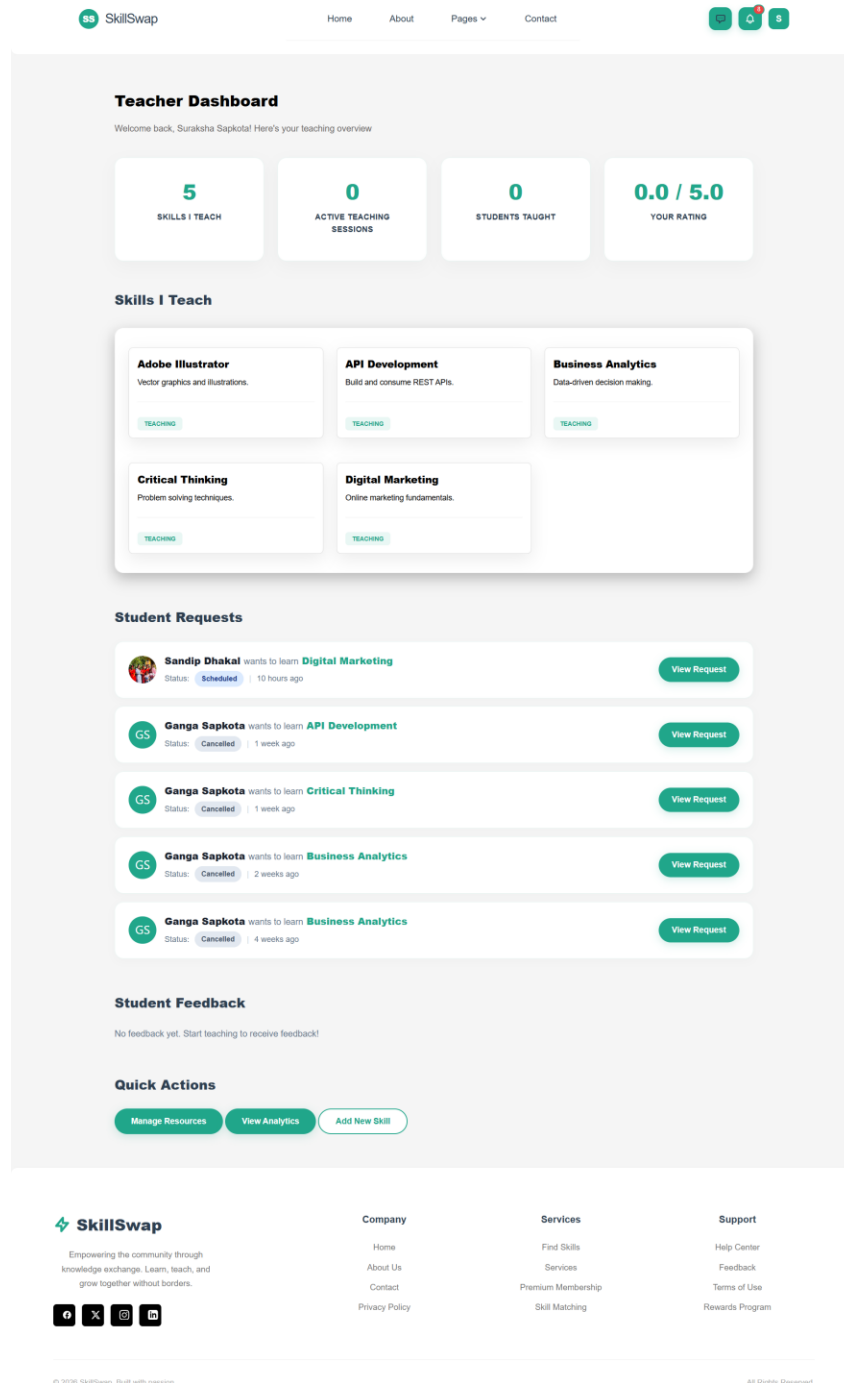

Figure 4: Teacher dashboard after skill or session added

Teachers can add resources for students to help them further.

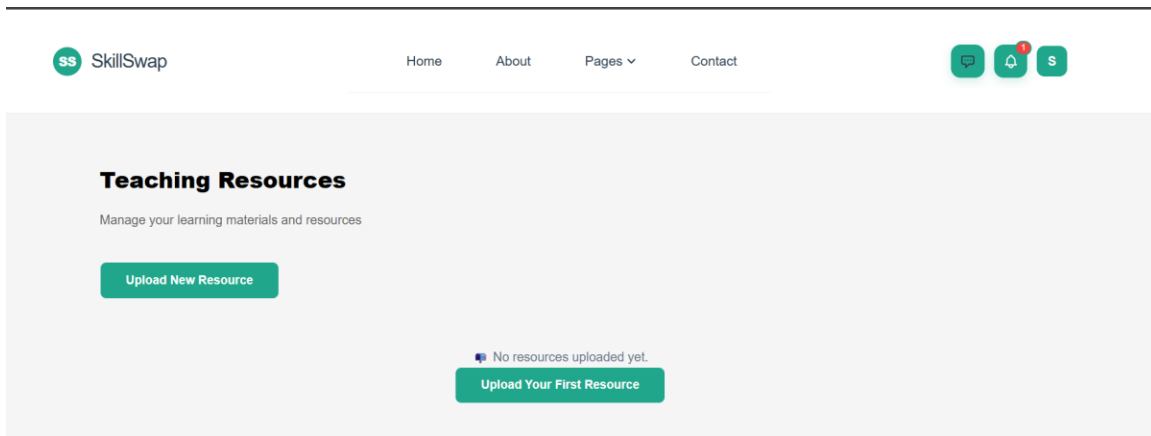

Figure 5: Teacher's resources sharing page

The screenshot displays the 'Upload Teaching Resource' form. The title is 'Upload Teaching Resource' with the subtitle 'Share your knowledge materials with students'. The form contains the following fields: 'Resource Title *' with the value 'Python Basic Tutorial'; 'Description' with the value 'This is for Testing'; 'Category' with a dropdown menu showing 'Reference'; and 'Upload File * (PDF, DOC, DOCX, TXT max 10MB)' with a file selection area showing 'Log1.docx'. At the bottom, there are two buttons: 'Upload Resource' and 'Cancel'.

Figure 6: Uploading teaching resources

After uploading the resources, that is visible to students when they view the teacher profile.

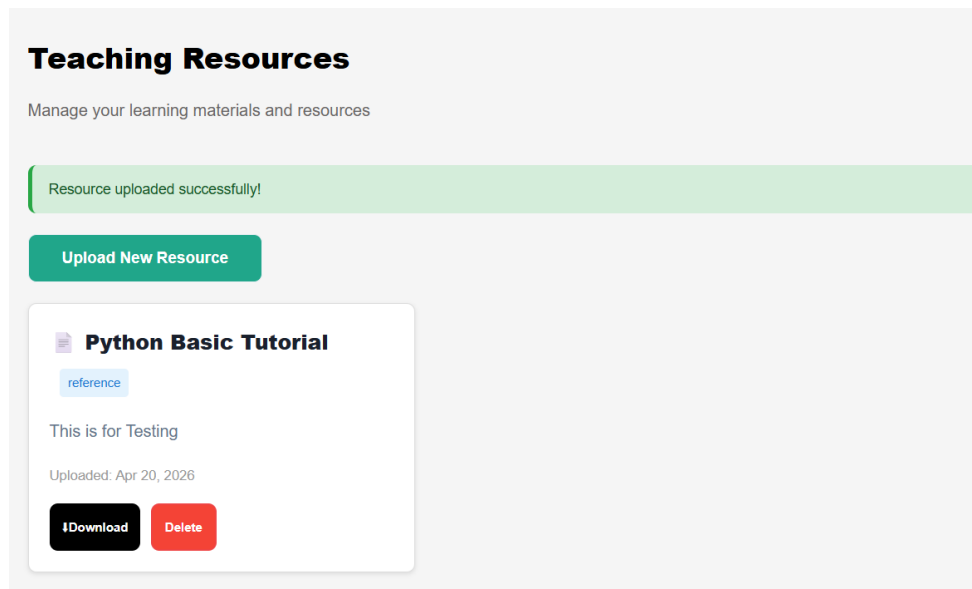

Figure 7: Uploaded resources successfully
