

LogBook: 04

Meeting No: 05

Date: 2026-04-21

Start Time: 09:00 PM

Last Visit Date: 2026-03-26

Finish Time: 09:45 PM

Items discussed:

- Discussion on teacher approval system, admin functionalities, and payment and subscription features.
- Discussion on implementing Teacher Resources feature for uploading and sharing materials with accepted students.
- Discussion on communication system including chat feature and classroom sessions through shared links.
- Discussion on teacher–student interaction features including request sending, acceptance/decline, and notification system.
- Discussion on session management including rescheduling functionality.
- Discussion on implementing Dispute model for handling user issues and conflicts.
- Discussion on improving overall UI/UX design and system usability.
- Discussion on adding additional system pages including Contact Us, Privacy Policy, Terms of Use, and Help Center.
- Discussion on Admin Dashboard development including user monitoring, teacher approval, and system management.
- Discussion on final system integration, testing, debugging, and preparation for documentation and project completion.

Achievements:

- Successfully implemented teacher–student request system including request sending and teacher accept/decline functionality.
- Implemented notification system to update users about requests, approvals, and system activities.
- Developed Teacher Resources feature allowing teachers to upload materials and accepted students to download them.
- Designed and developed Admin Dashboard with functionalities for managing users, approvals, and system activities.
- Integrated admin features including teacher approval, user monitoring, payment, and subscription basics.
- Implemented chat system for communication between users.
- Developed classroom session feature enabling teaching and learning through shared links.
- Implemented session rescheduling functionality for better session management.
- Developed Dispute model to handle user complaints and system issues.

- Improved overall UI/UX design for better usability and consistency across the system.
- Added important pages including Contact Us, Privacy Policy, Terms of Use, and Help Center.
- Performed complete system testing and debugging across all modules.
- Completed final documentation and ensured all SRS-defined features were fully implemented.
- Finalized the system and prepared it for project submission.

Problems (if any):

- Faced challenges in implementing role-based access control across Admin, Teacher, and Student dashboards.
- Encountered issues in managing file upload/download and restricting access to only accepted students.
- Faced synchronization issues between request handling, notifications, and database updates.
- Minor difficulties in implementing real-time chat and session link management.
- Challenges in integrating multiple modules such as admin, payment, and user interaction features.
- UI consistency issues across different pages which required refinement.
- Minor bugs during final integration and testing which were resolved through debugging.

Tasks for Next Meeting:

- None
