

LogBook: 1

Meeting No: 01

Date: 2025-11-02

Start Time: 10:00 AM

Last Visit Date:

Finish Time: 11:00 AM

Items discussed:

- Discussion about my project idea and overall concept.
- Discussed how to manage the project using GitHub and version control.
- Learned about setting up branches for each development increment.
- Got instructions for integrating Discord notifications for GitHub updates.
- Use of Trello for project management and task tracking.

Achievements:

- Successfully shared and explained my project idea with the supervisor.
- GitHub account was created and a private repository set up.
- Added supervisor as a collaborator.
- Repository organized with folders for artifacts, log sheets, development, and reports.
- Discord webhook successfully integrated to notify about changes.
- Trello board created for managing tasks.

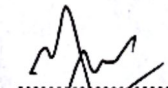

Problems (if any):

- Faced issues while pushing code to GitHub, such as "repository not found" and "permission denied."
- The error was caused by an account mismatch between two GitHub accounts.
- Solved it by removing old credentials, using the correct remote link, and applying a personal access token.

Tasks for Next Meeting:

- Research similar projects to understand features and implementation.
 - Color Theory and use in css through variables
 - Navigation: Pagination, Infinite Scroll, etc.
 - Pages Layout and Design: Detail, List View
 - Webappalizer: Extension to review techs.
 - Wireframe or Prototype of research
