Start Time: 7:45 AM

Last Visit Date: 2025-12-08

Finish Time: 8:30 AM

Items discussed:

- Preparation of the Software Requirement Specification (SRS) document, including clearly defined functional and non-functional requirements.
- Developed detailed Use Case descriptions and diagrams covering all identified actors and system interactions.
- Designed the Entity Relationship Diagram (ERD) with complete entities, attributes, and relationships for the project.

Achievements:

- Completed the SRS document, clearly defining both functional and non-functional requirements of the system.
- Designed and finalized a complete Use Case Diagram representing all actors and their interactions with the system.
- Ensured consistency between requirements, user roles, and system functionalities for accurate system modeling.

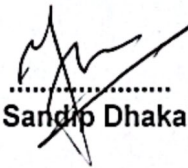

Problems (if any):

Tasks for Next Meeting:

- Design and complete all remaining system diagrams (ERD, Class Diagram, DFD Level 0 and Level 1, Sequence Diagram, and Activity Diagram).
- Compile and finalize the Interim Report by integrating all completed documentation, diagrams, and references.
